

Kitchen Cleaner

1

Description:

Highly concentrated, low foaming, universal kitchen cleaner. Also suitable as soaking agent for dishes and as floor cleaner in a scrubber-dryer.

Application:

Ecodos Kitchen Cleaner can be used for cleaning all water-resistant surfaces such as floors, walls, countertops, kitchen appliances, containers etc. Because Ecodos Kitchen Cleaner is a low foaming product, it can be used perfectly as a soaking agent for dishes (prevents foam from developing in dishwashers). Because of its excellent cleaning features, it is also suitable as simple floor cleaner in the scrubber-dryer. Prevents foam from developing in the machine.

Usage and dosage:

Dose by way of Ecodos Easy.

Spraying method:

Dose 5 ml of product in a spraying bottle filled with cold water. Spray the dilution on a cleaning cloth or straight on the surface and clean it. Empty the bottle daily.

Soaking method:

Use the following dosage:

Mild soil: Dose 5 ml of product.

Normal soil: Dose 10 ml of product.

Dose the product in a bucket filled with maximum 5 litres of lukewarm water. Soak a cloth or sponge in the dilution and wring it until it is moist and clean the surface.

Soaking agent:

Dose 10 ml of product per 5 litre of cold water.

Scrubber dryer:

Use a dosage of 0.2% (2 ml per litre of water). Dose the product in the clean water tank of the machine.

Technical features:

Colour:	Orange
Scent:	Unscented
pH-value concentrate:	9.5
Composition:	Based on raw material from renewable origin. The product is biodegradable according the European Detergent Regulation (EC 648/2004).

Packaging:

Bag 1.5 litre: 2 pieces in a box

Safety and storage:

For more information regarding storage, transportation and safety we refer you to the Safety Data Sheet.
